Meko Group d.o.o. is a company, born from the joint venture of Italian and Slovene companies that together have created a group where each company has a long experience both in the automotive, aerospace and aeronautic field.

As far as the **aeronautic field** is concerned, some of our main customers are: Finmeccanica Group, Augusta Westland, Thales Alenia Space, Edag, Sonaca, C2I etc. and our **Know how** is related to the design and to the manufacture of checking fixtures and assembly fixtures in aluminum and in composite material.

In our departments you can find 3-5 axed machines, a “clean room” and two autoclaves

Please find here below some examples of activities we have done:

- Tool chain for the assembly of the tailgate (C27 J)
- Stretching tools for the C27J
- Tool chain and drilling template (Bombardier)
- Tool chain for the rear rotor (Helicopter Agusta AW339)
- Tool chain for the wing (EFA)
- Tool chain and manufacture of parts in composite material

As far as the **automotive field** is concerned, we are supplier for Fiat Group, Maserati, Edag, Volkswagen, Magna Steyr, Webasto, Italdesign-Giugiaro, etc. and here below please find some examples of activities done in the last years:

- Modification of Master 139 for the Cross-Version
- Fiat 334 Chassis and front part
- Restyling 312
- Maserati M161- Fiat 520-521 and Alfa 952
- Checking fixtures for water tests (Ferrari F149)
- Master cubing for assembly tests (Maserati Ghibli)

Regarding the **prototypes**, we work directly with Pininfarina and Italdesign-Giugiaro
