

Innovative Manufacturing Processes for Aerospace Industry

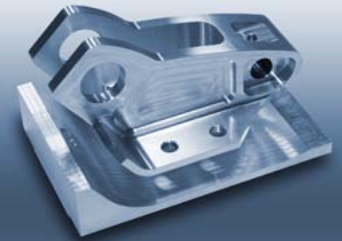

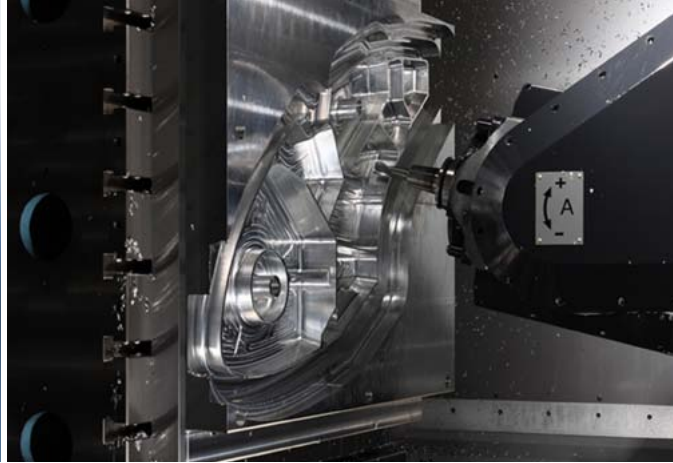

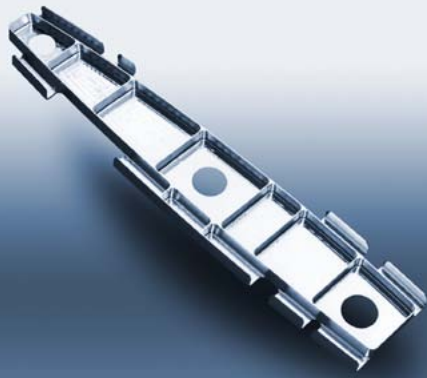

Invitation

to Makino's International Aerospace Forum

January 25 – 26, 2017 in Kirchheim unter Teck, Germany

Dear Madam or Sir,

You are cordially invited to the International Aerospace Forum at Makino, Kirchheim unter Teck, Germany on **January 25 – 26, 2017**.

Experience the trendsetting innovations by Makino and learn about the latest manufacturing process innovations in the aerospace industry. The Forum will feature various presentations and a vivid panel-discussion with well-known personalities from the industry, as well as Makino experts, highlighting diverse topics ranging from manufacturing process optimisation to ROI maximisation.

The Forum will be rounded off by practical demonstration of our machines dedicated to aerospace applications. At the end of the event, we offer you a chance to participate in a B2B networking event and network with the other participants from all over Europe.

How to find us in Kirchheim unter Teck:

From highway A8:

Exit the A8 motorway at Kirchheim u. T. West (exit no. 56) and drive towards Kirchheim on the B297 (Nürtinger Straße). Stay on this road, which becomes Hegelstraße, leave the roundabout at the third exit into the road called Kruichling. Makino is at the end of this road on the right-hand side (Kruichling 18).
